

Physics Experiment (No. 2)

Filesize: 9.58 MB

Reviews

*Basically no terms to explain. I have read and so i am certain that i will gonna go through once again once more in the future. I realized this ebook from my dad and i encouraged this book to discover.
(Forest Little)*

PHYSICS EXPERIMENT (NO. 2)

To download **Physics Experiment (No. 2)** PDF, please refer to the button below and download the ebook or get access to other information that are relevant to PHYSICS EXPERIMENT (NO. 2) ebook.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 198 Publisher: Xiamen University Pub. Date :2011-08-01 version 1. Contents: Chapter IV increase. a comprehensive experimental test a solenoid with a Hall-effect measurement of the magnetic field experiment with two dynamic magnetic oscilloscope observation hysteresis loop and magnetization curve of Experiment 3 Experiment 4 parallel resonant AC bridge and AC power measurement - fluorescent circuits RLC series circuit of Experiment 5 the steady-state characteristics of experimental six series RLC circuit transient characteristics of experimental seven CCD drive circuit Experiment eight non-linear circuits Chaos Experiment nine SCR dimming circuit experiment ten laser double-grating method for measuring small displacement experiments eleven experimental determination of thin lens focal length lens twelve thirteen point of measurement experiment with the Abbe refractometer measuring the refractive rate experiment fourteen collimator adjustment and use of experimental determination of fifteen double-prism monochromator wavelength calibration experiment sixteen and filter spectral transmittance curve of optical phenomena and measurement experiment seventeen eighteen oval Polarimeter Experiment generation and detection of polarized light imaging and Abbe experimental nineteen twenty experimental modulation characteristics of silicon photovoltaic solar cell research experiments twenty-one characteristics of fuel cell integrated experimental twenty-two Experimental Experimental Experimental twenty-three infrared communications experiment twenty-four hot body radiation experiments twenty-five electron charge-mass ratio of the measurement experiment twenty-six giant magnetoresistance experiments twenty-seven optical fiber and its application in the speed of light measurement experiment twenty-eight Faraday magneto-optical effect Experiment twenty-nine sound and light effects Experiment thirty crystal electro-optic effect Experiment thirty-one liquid crystal electro-optic effect experiments thirty-two Chapter holographic experiment a design experiment using voltammetry experiments measure the power output characteristics of LED optical characteristics of two experiments to measure three will be converted into a microammeter Table Experiment 4...
