Enhancing Online Learning Experience

By Meisam Moradi

LAP Lambert Academic Publishing Dez 2012, 2012.

Taschenbuch. Book Condition: Neu. 220x150x7 mm. This item is printed on demand - Print on Demand Neuware - The main purpose of this study is to develop a collaborative base and co-operative online painting system that could be used as a part of an E-Learning platform based on web 2.0 standards, that is about to engage the rich internet applications (RIA) techniques to enhance distance learning experiences. This application integrates the online real-time interaction to improve the presentation of the routine E-learning and inspire self-active learning willing. This application is about to give a chance of using all the internet fruits and bounties to make sure that an instructor and a learner who is collaborating with his or her colleagues are able to pass their knowledge, toughs and ideas. This way and by using this rich internet application (RIA) is so far distinctly ahead of its other competitive methods and tools. The method which is used in this project is having two series of codes with separated functionalities. In this book, our contributors are, Meisam Moradi , Dr.Sabzali Musa Kahn, Jaffri Hanafi and Zahra Kakaei. 116 pp. Englisch.

Reviews

A new electronic book with an all new standpoint. It usually fails to charge too much. Its been printed in an exceedingly basic way in fact it is simply following i finished reading this book through which basically altered me, affect the way in my opinion.

-- **Dr. Amie Bogisich**

Without doubt, this is actually the very best function by any article writer. it was writtern quite flawlessly and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Prof. Isobel Heller MD**
