HUMAN FACTOR IN FREE MARKET EFFICIENCY

New Century Publications, New Delhi, 2012. Hardcover. Book Condition: New. First. 14 cms. 182pp. Existing knowledge about what makes the free market economy system function efficiently is incomplete, though improving continually. Few scholars of economics possess any idea as to what unleashes the factors that fuel free market efficiency, high economic growth, and sustained human-centered development. The lack of this knowledge has led to warped philosophical economic thinking, theorizing, faulty policies, useless plans, irrelevant projects, and bankrupt programmes. This book...
