

## A Guide to the Pitcher Plants of Peninsular Malaysia

By Clarke, Charles

2002. Paperback. Book Condition: New. First Edition. Well illustrated, large slim 8vo, pp 32, paperback, a very good copy. Postage will be much reduced. [Illustrates and describes the 16 species of this region. This new guide to the pitcher plants (Nepenthes) of Peninsular Malaysia discusses the 10 species and several natural hybrids that occur in the region. In comparison to the neighbouring islands of Borneo and Sumatra, Peninsular Malaysia is not often considered to be a centre of diversity for pitcher plants, but as this book serves to illustrate, the species that occur there are as beautiful and spectacular as those from anywhere else. The book is divided into several parts, the first one introducing the reader to pitcher plants and Peninsular Malaysia in general. This is followed by a section that discusses each of the species, and several natural hybrids in greater detail. The final part provides information on several notable locations where pitcher plants can be found in Peninsular Malaysia. The text is drawn from the authors previous works on Nepenthes from Sumatra and Borneo, while the illustrations include a number of images that have not been published previously.] The book is illustrated throughout with beautiful colour photographs...

### Reviews

*Without doubt, this is the very best operate by any writer. This is for all those who statte that there was not a well worth reading through. I discovered this pdf from my dad and i suggested this book to find out.*

-- **Dominique Huel**

*This kind of pdf is almost everything and made me seeking forward and much more. It is actually packed with wisdom and knowledge You will not really feel monotony at whenever you want of your own time (that's what catalogs are for about when you question me).*
