Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Engineering Education in the British Dominions In 1870 The Council of The Institution of Civil Engineers issued a volume entitled The Education and Status of Civil Engineers in the United Kingdom and in Foreign Countries; but since that time, this subject of Engineering Education has acquired much increased importance in consequence of the great success and large extension of the Student Class, and the consequent larger demand for preliminary education for the profession. The Council felt it their duty to draw up, with much care and consideration, a set of Regulations for the Admission of persons into this class, and as these have been found, by experience, to work well, they are now republished for general circulation. The Regulations have expressly had reference to a preliminary course of education. The work of 1870 contained information as to the Educational Institutions in Great Britain and Ireland, where instruction was given bearing on the profession of Civil Engineering; but during the time that has elapsed since that date, the number of these Institutions has so much increased that it is now necessary to issue an amended list, which is given in Appendix A. Further details may be obtained by applying to the Institutions themselves. In Appendix B are added some remarks on the general subject, which are considered worthy of attention.
