Brand New Book ***** Print on Demand *****.Almost all calendars today list only secular and religious holidays. Rarely will you find one that includes metaphysical or astrological data. Many of the calendars available that include Pagan observances are filled with lovely art, however, they may not be appropriate for display at the office or in public areas. Feel comfortable displaying this calendar of artistic photography while still keeping track of information important to you. Please note that observance dates may vary. - Enjoy 25 months, December 2014 through December 2016. - Tasteful artwork, stunning black and white photography of Gothic cemeteries of New Hampshire provides an artful approach to an otherwise unconventional calendar. - Holidays, major religious and secular US holidays are noted as they are in standard calendars. - Pagan Observances, Northern Hemisphere Sabbats, solstices, and historical references are just as prominent as religious and secular holidays. - Moon Phases: Keep track of lunar cycles including the historical names for each full moon. - Astrological Periods (Northern Hemisphere): Know exactly when your sun sign ends and the next begins - May be used as a wall calendar or monthly planner.
